

PRODUCT

SMT Manual Splice Tool

TECHNICAL DATASHEET

DESCRIPTION

The SMT Manual Splice Tool is made from stainless steel and has an ergonomic rubber handle for a soft comfortable grip. It can either use a single brass shim or a single splice tape with combined shim to splice together two ends of splice carrier tape together.

Locking clamps located at either end of the SMT manual splice tool ensures the splice carrier tape can be held in place when joining with either a brass shim or single splice tape with combined shim connector.

FEATURES

- Stainless Steel material
- Can be used with all types of SMT material
- Ergonomically designed rubber soft-grip handles for comfort
- Lock clamps to secure reels
- 5mm guide pins for reel placement
